

Summary

I am a fast-learner, and I enjoy computer science and foreign languages. I am constantly looking for new challenges and interesting problems to solve. I am a proud father living in England, enjoying living abroad and travelling around the world.

Known Universe

Work Experience

Bloomberg

Software Engineer

2017 - Current
1.5 years

Full time position in **Data Processing and Acquisition** at Bloomberg, London:

- Responsible for a **distributed system** processing millions of economics time series
- In charge of an internal web framework with hundreds of daily active users
- Managing the flagship application on the framework acquiring energy generation data

Data Science Intern

2016
6 months

Internship in **Data Science** at Coorpacademy, Paris:

- Developed a Machine Learning recommendation engine with TensorFlow
- Created a **streaming pipeline** analyzing live business data with Spark

Software Reliability Engineering Intern

2015
4 months

Internship in Large Scale Database **Reliability Engineering** at Google, Dublin:

- Automated the recovery of a complex data drift problem in MySQL at Google scale
- Diagnosed and fixed problems in a big and highly complex code infrastructure
- Developed in a **real production environment** affecting users at large

Deep Learning Software Engineering Intern

2014
3 months

Internship in **Deep Learning** for semantic data in IT security applications at Altran:

- Analyzed **semantic meaning** of data retrieved by a web crawler
- Stored the extracted data as a RDF graph, and analyzed with a neural network
- Performed Deep Learning feature extraction in the collected data (possible passwords)

Interests

Diversity & Inclusion Initiatives

Community ally

2018-current
1 year

Proposing and facilitating events and discussion around diversity and inclusion:

- Starting discussion around inclusion and privilege across Bloomberg communities
- Helping organise events where women give technical talks

Education

Georgia Institute of Technology

2016-2017
1 year

Master of Computer Science - Machine Learning

Dual Degree - Master of Science in Computer Science with **Machine Learning** major:

- Analyzed real world (financial) data with Machine Learning algorithms
- Working with Autonomous Robotics systems
- Developing a Full-Stack mobile Application

National Institute of Applied Science

2013-2017
4 years

Engineering Degree in Computer Science

Dual Degree - Engineering Degree in Computer Science:

- Lead machine learning face recognition and positioning project
- Made compiler **from scratch** (except regex engine) for simple language in C++ (<https://github.com/fat-gyft/lutcc>)

Paris Descartes Institute

2011-2013
2 years

2-year Computer Science Degree

Started higher education in computer science, after high school

Skills

Engineering Skills

Collaboration

- Design discussion with peers
- Full ownership of products

Design

- Focus on business value
- Automated testing

Distributed Systems

- μ -services architecture
- Python, Go or C++

Machine Learning

- Algorithms and data structures
- Python (sklearn & tensorflow)
- Scala (Apache Spark)

Database Management

- MySQL, Oracle
- MongoDB, GraphQL

Full Stack Development

- Modern JavaScript

Student Engagements

Student Board Member and Representative

2011-2015
4 years

Engaged in various activities in the school associations:

- Organised a yearly recruiting event with industry leaders (2015)
- Was elected to represent class mates 4 years in a row

Spoken Languages

A big passion

English: Fully fluent (TOEFL: 114/120,
TOEIC: 970/990)

German: Fluent

French: Mother language

Mandarin Chinese: studied 4 years

Italian: studied 3 years

Spanish: studied 1 year
